

PRESTON FUNDERBURG

ARCHITECT IN TRAINING

ASSOCIATE AIA, LFA, LEED GREEN ASSOCIATE

Preston just completed his M.Arch from South Dakota State University in August 2022 and has now joined the ID8 team full-time!

One of Preston's favorite parts of design is looking at design through the eye of the user as well as the impact it has on the community and environment around it, since everyone interacts with architecture every day. His interest in sustainable design has helped him obtain his Living Future Accreditation as well as LEED Green Associate certification and believes it is important to contribute to a healthy community environment.

He is also skilled in 3D building scanning which allows our team the opportunity to utilize this technology for collecting building data on future projects.

PROJECT ROLE

As an Architect In Training, Preston will assist in preparing the architectural plans, details, specifications, and drawings for buildings and structures; prepare plans and specifications for furniture and equipment; and perform other related duties, such as project management, as needed throughout the project.
