

REECE PETERSEN

ARCHITECTURAL INTERN

Reece is currently working toward his M.Arch from South Dakota State University. He joined the ID8 team in April of 2023 as our next Graduate Architectural Intern.

One of Reece's favorite parts of design is detail development. He enjoys the process of problem solving and finding out how things work through drawing and developing details.

Reece loves to work with his hands and create. Growing up, jobs in the construction industry pushed him to pursue an education in the Architectural industry.

PROJECT ROLE

As a Graduate Architectural Intern, Reece assists projects in preparing site planning as well as the architectural plans, details, specifications, and drawings for buildings and structures; prepare plans and specifications for furniture and equipment; and perform other related duties as needed throughout the project.
